Dear Residents:

The HID has been paying a huge amount for paper, ink and postage so is making an effort to be more efficient to reduce overhead costs and also to help the environment.

Thus, we would like to reduce the amount of correspondence that is being sent via regular mail. Newsletters and documents can be more efficiently sent by email to reduce costs and paper waste created by using the regular mail.

If possible, please submit to the office your up-to-date contact information with phone, email address and physical address. This will assist us to get out information in a timely and efficient manner. We do not subscribe to Facebook.

Thank You,

HID Staff and Trustees.
